rate increase or decrease first effective for the current levy year has been approved by referendum, the aggregate extension base, as adjusted in Sections 18-215 and 18-220, shall be multiplied by a rate increase (or decrease) factor. numerator of the rate increase (or decrease) factor is the total combined rate for the funds that made up the aggregate extension for the taxing district for the prior year plus the rate increase approved or minus the rate decrease approved. The denominator of the rate increase or decrease factor is the total combined rate for the funds that made up the aggregate extension for the prior year.
